Save Gillies Hill Hopeful of Council Decision

Save Gillies Hill, who have campaigned for the last nine months to protect the historic and environmentally vital hill from further quarrying, remains hopeful that Stirling Council will respond positively to their concerns at tomorrow's (Thursday) meeting when the matter is likely to be discussed.

A *SGH* spokesperson said: "It looks like the Council will be considering their QC's opinion on the 2002 planning consent, and if that opinion is that there should be some revision of the consent, as *SGH* maintains, then we'd clearly welcome that. Our members will be in the public gallery. Whatever happens, we know, and so should our many supporters, that the campaign will continue till the future of Gillies Hill is assured. The meeting begins at 7pm.

Supporters are also reminded that tickets for Gaberlunzie in the Social Club on 29 February, price £8, are selling fast. They might also want to check out our updated website at savegillieshill.org.uk for all the news on the campaign.
